Messenger Arrives During Con-  
clave; Attorney General  
Called Away

By Associated Press  
Washington, D. C.—President Coolidge prior to Tuesday's cabinet meeting had an hour's conference with Paul Howland of Cleveland who was attorney for Attorney General Daugherty in the house impeachment proceedings of a year ago.

White house and department of justice officials declined to discuss the conference, Attorney General Daugherty on arriving at the executive office for the cabinet meeting waved aside a question on the subject.

The conference followed a discussion of some length and the attorney general at which they talked over the move by Republican senate leaders to bring about Mr. Daugherty's retirement.

Mr. Howland has been in Washington about two weeks.

By Associated Press  
Oshkosh—"No cause of action" was the basis upon which Judge E. J. Werner of Shawano, Wis., today ruled in the case of Joseph W. Smick, Jr., City of Oshkosh, vs. C. McHenry, John C. Voss, Charles F. Hart, and H. W. White Monday afternoon.

## FACES TRIAL FOR THEFT OF BUTTER FROM CREAMERY

By Associated Press  
Ashland—Leo Parks, after being held in the Ashland-Co. jail for several months, appeared in municipal court Monday morning to answer a charge of grand larceny in connection with alleged theft of 185 pounds of butter from the Butternut Cooperative Creamery on Oct. 6, 1923. He waived examination and was bound over under \$500 bonds. The bond was not furnished.

## TWO SLAIN IN CROSSING ACCIDENT AT LACROSSE

La Crosse—L. M. Norby and Milton Munson of Holmen, employees of the Wisconsin-Minnesota Light and Power Co., were killed when their car was struck by a southbound Burlington train at a grade crossing here Monday night. The automobile was demolished, the wreckage being strewn for 150 feet along the right of way.

## Noted Author Succumbs To Heart Attack

By Associated Press  
New York—George Randolph Chester, author and playwright, died early Tuesday.

Mr. Chester left his Ohio home at an early age and engaged in various occupations. Beginning newspaper work as a reporter on the Detroit News he rose to become one of the nation's most popular writers of fiction.

"Get Rich Quick Wallingford" and "Blackie Daw" were two of his most famous fictional characters. Mr. Chester was 55 years old.

Mr. Chester and his wife worked late Monday night on a new story. Shortly after midnight he complained of pains in his chest and Mrs. Chester applied hot towels. But the hot applications failed to relieve him and he took a hot bath and retired, joking with Mrs. Chester about his pains.

Shortly before 5 o'clock Tuesday morning, Mr. Chester sat up in his bed, awakened his wife and said to her:

"You know, dear, I love you. I feel back upon my pillow. His wife did not think him dead and attempted to revive him. Failing, she called the superintendent of the apartment house, James Schultz, and he summoned an ambulance. Mr. Chester died of heart attack.

## POLICE SEEK PAIR IN DUFFY MURDER CASE

Chicago and Columbus Men  
Suspected of Complicity  
in Double Slaying

By Associated Press  
Chicago—William Engelke of Chicago, and James Zollers, of Zollin, of Columbus, O., are being searched for by police in connection with the killing here of John Duffy and his wife whose bodies were found last Friday. Engelke has been named as an associate in illegal operations of the "Warrior" and "Jack" Horton, now in custody in New Orleans, with his wife, and Mr. and Mrs. Morris Curtis Zollers, according to Ruby Downing of Louisville, Ky., is a former suitor of Mrs. Duffy and might have been actuated by jealous motives. Zollers was seen in Columbus last Wednesday, according to reports from authorities there.

## AMERICAN WOMEN LIVE LIKE QUEENS

Roumanian Art Emmissary  
Says Fair Sex Does Not  
Know Happiness

Chicago—American women are the loveliest women in the world, although they are charming, intelligent, hospitable, dress faultlessly and never are too fat or too thin, according to Madame Marie Jonscut, sister-in-law of the former Premier of Roumania and art emissary of Queen Marie. She concluded that American women are loveliest because they have not learned that happiness comes first, their husbands wearing themselves out to provide luxuries for their women, and consequently die young.

## INJURIES ARE FATAL AS TRUCK CRUSHES MAN

Milford, Mass.—Frank A. Mann, 40, of Cambridge died Monday night in the Milford hospital from injuries received when he was run over by a truck he was repairing. He crawled under the stalled machine in an effort to locate the trouble, the brakes slipped and the machine backed down an incline, a front wheel passing over his body. He sustained a broken back, a fracture of the left arm and internal injuries.

J. Jusserand of France, President Coolidge, Dr. Charles S. MacFarland, president, Tercentenary Commission; Baron de Cartier de Marchienne, ambassador from Belgium.

## MAN SUICIDES AFTER SLAYING WIFE, THEORY

Washington Couple Found Shot  
in Home of Woman's Daugh-  
ter at Green Bay

By Associated Press  
Green Bay—Finding of the bullet-riddled bodies of A. D. Tuttle, of Carlisle, Wash., and his wife in the home of R. C. Rice, on the outskirts of this city early Tuesday gave evidence of the murder of the woman by her husband and his suicide by means of a shot in the right temple last night. No motive for the acts of Tuttle are known authorities say.

The bodies were found in the living room early Tuesday morning by R. C. Rice son-in-law of the dead woman when he returned from the Northwest Engineering Co., where he is employed nights. Mrs. Rice is at a local hospital where she has been for about a week.

Pierced by four bullets from a large calibre revolver, the body of Mrs. Tuttle was found kneeling in front of a chair, from which she had evidently fallen. The four bullets were found in the upholstery of the chair. Tuttle's body was lying nearby with a wound in the right temple, and another hole where the bullet had emerged.

Mrs. Rice is a daughter of the dead woman and Mrs. Tuttle had come from Carlisle, Wash., to care for Ruth, three-year-old daughter of Mrs. Rice. The dead woman was formerly Mrs. George Johnson of this city.

Mrs. Tuttle was 60 years old and her husband was 70.

The motive for the act is obscure, but that it had evidently been contemplated is indicated by notes left by Tuttle addressed to his daughter and friends asking forgiveness for what he was about to do and gave directions as to the disposition of his property. Of his wife he said, "I love her and cannot return without her."

Between 10 and 11 o'clock Monday night, according to the story told by Mrs. Charles Boyden, who lives on the second floor of the house, she heard a fusillade of shots. She fled to the bathroom, she says, and locked the door. After screaming for help and not arousing anyone in the neighborhood, she spent the night in terror, according to her story.

When Mr. Rice entered the home Tuesday morning he found his little daughter Ruth, three years old, asleep in a chair in the room with the dead couple.

## EXPERTS DEVISE MILK PRICE RATE

Madison—A new system of marketing milk which, it is believed by experts here, will be the basis for agreements in other cities and prevention of milk wars was announced Tuesday by Wisconsin marketing department officials. The new plan has been adopted by Madison distributors and producers in this vicinity and ends a disagreement which has been on for some time.

Under the plan, devised by experts of the marketing department and state university, a differential rate for milk to producers will be established at a different rate being paid each month of the year according to the supply. The rate varies from 70 cents per 100 pounds in January and February to 95 cents in September, October and November.

## Income Tax Publicity Is Barred By Coolidge

Provision Making Returns Avail-  
able to Special Committee  
of Congress May Kill Mea-  
sure.

By DAVID LAWRENCE  
Copyright 1924 by the Post Pub. Co.  
Washington—The Coolidge administration will never consent to the provision inserted by the house in the pending tax bill making income tax returns available to a special committee of congress.

The opposition to the move from the treasury is so emphatic that this together with other objectionable features in the tax bill may be the basis for a veto message from the White House.

Should congress have the right to throw open to the public gaze the private affairs of the American people? Should one business concern engaged in sharp competition with another and possessed of influence in congress sufficient to get at the income tax returns be enabled to get facts and figures on rival concerns? Should members of congress be given new ammunition with which to attack private business? These questions are answered in the negative by administration officials.

## ALLEGED SLAYER FURNISHES ALIBI

Suspect Surrenders to Hibbing  
Police and Tells Story of  
Innocence

By Associated Press  
Hibbing, Minn.—Offering what he claims to be a perfect alibi, Henry Mahne who was sought by the police for the death of Cosmo Libro in Chisholm Sunday night, Monday walked into the Hibbing police station and gave himself up. He informed Fred Whitman, desk sergeant that he heard he was wanted for a murder in Chisholm.

He told the officer and Victor Johnson, county attorney who questioned him later that he spent the greater part of Sunday in Chisholm and came to Hibbing on a street car reaching here about 5 P. M. Libro was killed at 6:30 P. M. The man stated he spent Sunday night with his brother-in-law here.

Mahne said he had never had a gun, and did not hear of the murder until Monday. He was taken to Chisholm late Monday afternoon to await a hearing Tuesday.

Knut Mahne, a brother, who was apprehended in Chisholm immediately following the shooting, is in county jail here. He said he also can furnish an alibi.

## BLIND JAPS JOIN MOVE FOR UNIVERSAL BALLOT

By Associated Press  
Tokyo—Japan's agitation for universal manhood suffrage is spreading into strange quarters. Now it is the blind that wish to vote. A meeting of the League of Blind Men of Japan at Nagoya recently went on record on a demand for the franchise and the preparation of special ballots printed in Braille letters for their use.

Stollberg, Saxony—Bachelors and bachelor-maids alike are to bear special tax in this city. The district council has decided that the unmarried of both sexes shall pay a head tax to lessen the burden of families.

## HITLER AIDES REFUSE FOOD BUT NOT BEER

Principal Testimony Will Be  
Heard Behind Closed  
Doors

By Associated Press  
Munich, Bavaria—The sanguinary events of last November became again a topic of intense public interest Tuesday with the opening of the trial of former Field Marshal Ludendorff and his nine associates for their parts in the attempt to overthrow the government.

While provisions for the press have been made in the military academy where the trial is being held, the most important of the testimony will be taken behind closed doors and the public sittings are not expected to develop much in addition to the facts already published. The proceedings are expected to consume but a few days.

Aside from Ludendorff, the defendants are Adolf Hitler, leader of the "Bavarian Fascists," former Police Chief Poehner, Dr. Friesch, ex-president of the Munich district, Lieutenant Henry Purnet, who is Ludendorff's stenographer and five men accused of being Hitler's aides.

Four defendants are reported to have gone on a hunger strike. The prisoners each have separate rooms in the military academy, which is used as a temporary courthouse, and the authorities are said to have taken strenuous measures in an endeavor to break the strike and keep the prisoners in good condition for appearance in court. They were offered pretzels, cheese, sauerkraut, rye bread, wienersurst, beer and other things for which Bavaria is famous, but drank the beer only and declined to eat of the food.

General Ludendorff appeared in court attired in a civilian suit of dark material and wearing the iron cross of the first class.

## LEADERS ARE INNOCENT

Berlin—The Socialist news service Tuesday publishes what purports to be an extract from an indictment against those accused of participating in the Ludendorff-Hitler "putsch" at Munich last November.

According to this extract the conduct of Dr. Von Kahr, the former Bavarian dictator, and general Von Lossow, who headed the Bavarian Reichswehr, was held to be "harmless" although they and relations with Adolf Hitler and the others and were well informed of their plans.

The indictment describes Hitler as the prime mover, asserting that he aimed at the overthrow of the governments of Bavaria and the Reich and that he allotted the offices of state, giving himself the leadership. General Ludendorff is declared to have been acquainted with all the plans for "this violent, unconstitutional undertaking," and to have acted as leader of the newly formed "national army."

## 2,000 POUND SAFE TAKEN BY BANDITS

By Associated Press  
Merri, Ill.—Bandits carried away a 2,000 pound safe containing \$15,000 in currency and securities from the State bank of Kinross, at Kinross, Ill. 12 miles from here early Tuesday with the aid of an automobile, a motor truck and a hand truck. The burglary was discovered shortly before 6 A. M. and Sheriff James Mack was notified but the robbers long since had escaped.

The bandits showed ingeniousness in removing the safe. They left three blocks from the bank and drove to the bank in their automobile. They had brought with them a hand truck with which to remove the safe, which was about four feet high.

The report of the robbery was given to the Chicago police by Sheriff James Mack of LaSalle, who said he had pursued the bandits several miles. He said they had used acetylene torches to enter the bank. The safe, he said, is four feet high, weighs 2,000 pounds and was carried away in a motor car.

## Keller Is Candidate For Mayor

Gustave Keller's candidacy for election as mayor of Appleton to succeed Henry Reuter, who has declined to become a candidate for reelection was announced Tuesday afternoon.

Mr. Keller has been a leader in civic movements in Appleton for nearly a quarter of a century. He served as postmaster for eight years and was an alderman from 1904 to 1909.

## G. O. P. TAKES UP FIGHT ON INCOME RATE

Republican Leaders Open Ne-  
gotiations With Insurgents  
on Tax Compromise

Washington, D. C.—Negotiations between Republican organization leaders and insurgents on the Longworth compromise income tax rate schedule for the revenue bill were entered into Tuesday.

Representative Woodruff, Mich. Kan., one of the insurgent leaders said he would support the compromise providing for a 37 1/2 maximum surtax rate and normal rates of 2 and 6 per cent on incomes below and above \$4,000 respectively, in view of the increase voted in estate taxes.

Representative Begg, Republican, Ohio, who conferred with Mr. Woodruff, said, however, that before the Democratic rate schedule could be thrown out of the bill when it comes up for final passage some of the Wisconsin delegation of eleven members must be won over to the compromise.

Representative Nelson, Wisconsin, declared members from that state had not changed and would support the Democrats if a vote came again.

Representative Green, Republican, Iowa, chairman of the Ways and Means committee Tuesday altered his gift tax proposal submitted Monday and proposed rates for such a tax at the same as voted for the estate tax.

## HEMPEL LAWYER IS IMPLICATED

Attorney of Man Who Secured  
Passport Under False Pre-  
tenses is Arrested

Washington, D. C.—Jacob Rothstein was arrested Tuesday and held under \$5,000 bail in connection with charges against John R. Hempel of Milwaukee, who is in jail charged with obtaining a passport on false pretenses. Miss Edna N. Koenig, formerly secretary to Hempel who made a trip to England with him was released on \$1,000 bond.

Rothstein, an attorney, was arrested while visiting his client in jail. Rothstein is alleged to have had some connection with Hempel's acts in obtaining the passports. Hempel has a wife in Milwaukee. Hempel went to Paris with Miss Koenig but an American consul there refused him a visa on the passport which read for "Hempel and wife." He was compelled to return to this country. He was arrested on his return and Miss Koenig was detained as a witness.

Albany, N. Y.—The suit for an accounting of the \$75,000,000 estate of the late Anthony N. Brady was settled in surrogate's court here Tuesday when counsel for both parties to the proceeding filed an agreement and stipulation.

## DRUNK CLIMBS ON WATERWAGON FOR THREE YEAR REST

Judge Spencer Lets Menasha Man Off Easily and Issues Warning

Paul McKinney of Menasha will be on the water wagon for the next three years as the result of a pledge made before Judge A. M. Spencer in municipal court Monday, after McKinney had been arraigned on the charge of drunkenness.

McKinney thought the disgrace would have been worse had he been arrested in Little Chute instead of Appleton, so he told the police when he awoke in the city lockup after his arrest.

The man is the sole support of a feeble mother. The mother appeared in municipal court Monday with a \$5 bill and a \$1 bill, which was all the ready cash she had. In view of her circumstances and the fact that her son promised to turn over a new leaf, Judge Spencer let the man off with a lecture and the small fine of \$1 to be paid in installments.

The judge issued a solemn warning that future drunkards need not take any encouragement from the lenient disposal of the case for circumstances may bring on a sentence as severe as the 30-day workhouse now being served by a Kaukauna man, who had just previously been released from a 30-day sentence.

## ENGINEER, HURT IN WRECK, IS DEAD

John H. MacCourt, engineer on the Lake Shore division of the Chicago and Northwestern road, who was injured Feb. 13 in a wreck near Kaukauna, died Sunday evening at Green Bay. Death was due to shock following severe injuries suffered when his train collided head on with a freight train. The run on which Mr. MacCourt suffered his injuries was on the eve of his seventieth birthday. He was to have been retired on a pension when his engine pulled into the yards at the end of his run.

Up to the time of his death the engineer was in perfect health and had planned a trip to Florida for the remainder of the winter. He was the oldest engineer on the Lake Shore division.

Funeral services will be held Wednesday morning at 9:45 from the residence of Mrs. J. D. Williams and the body will be taken to Escanaba for burial.

## BUILDING PERMITS

Two building permits were issued on Monday from the office of Robert A. Connelly, city engineer and building inspector. They were the tenth and eleventh of the season. The permits are as follows:

Joseph Kraft, 677 Main-st., for moving garage.

Hoffman Bakery, 945 College-ave., for expanding bakery.

## C. OF C. WILL ELECT NATIONAL-DELEGATE

A delegate to the national meeting of the Chamber of Commerce of the United States coming soon will be elected by the board of directors of Appleton Chamber of Commerce at the biweekly dinner at Verneulen's Wednesday evening.

The board also will consider movement of the White Cross movement to stamp out the manufacture of narcotics. A request that the chamber join the Great Lakes Harbor association, of which William George, of Milwaukee, is president, also will be acted upon. Further consideration will be given the public fund campaign of Wisconsin, The Lead O'Leakes, Inc. and the proposals for having a booster meeting here for organization of a state chamber of commerce.

## THOUSANDS HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement because kidney trouble is so common to the American people and that one reason why so many applicants for insurance are rejected is so common to the American people, the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

An effort was made at the Lions club meeting to show a Rotarian who was a guest, something of the athletic progress of the Lions, and four members staged an exciting race on kiddie cars around the room. This was at the regular luncheon in Conway hotel Monday noon. The announcer was George Daine and the starter and timekeeper was Eric Galpin. William Montgomery, A. G. Meating, David Breitshneider and Dr. J. L. Wenton participated in the race, with William Montgomery dashing to victory.

Dr. R. C. Mullenix of Lawrence college later addressed the members on "How Do You Get That Way," dealing with his subject in a biological manner. W. E. Smith, vice president of the club, presided.

## REAR END OF TRUCK HITS STREET CAR VESTIBULE

An east bound street car of the Appleton Junction line of the Wisconsin Traction, Light, Heat and Power company was somewhat damaged when the rear end of a wholesale grocery truck of the S. C. Shannon company swung into the vestibule. The accident occurred on West College-ave near the Fox River Grocery company. The big truck slipped into a rut and although the driver managed to bring the front wheels out of it, the rear wheels remained. Suddenly the rear end swerved about striking the street car and breaking some of the window glass of the street car. The automobile truck was not damaged. No one was injured.

## REELECT WHEATON AS HEAD OF COUNTY GAME ASSOCIATION

Elmer Hall, Conservation Commissioner, Chief Speaker at Meeting

W. R. Wheaton was reelected president of Outagamie County Fish and Game Protective association at the annual meeting Monday evening at Elk club. Other officers are Alfred Brantford, vice president; H. L. Bowlby, secretary and treasurer.

The bylaws were changed to provide for a board of directors and those selected as such board were G. L. Chamberlain, James McCabe, Ambrose Wilton, William H. Falatick, Oliver C. Smith and A. L. Wolfe.

The business session was preceded by a banquet which was attended by 120 persons. Elmer H. Hall of Madison, conservation commissioner, was the principal speaker. Brief talks also were given by W. R. Wheaton, A. H. Krugmeier, A. L. Wolfe and others. The meeting was characterized by enthusiasm.

## CANT CHANGE LAW

In discussing the bill which prohibits fishing of all kinds in the waters of Lake Winnebago and Fox and Wolf rivers between March 1 and June 1, the conservation commissioner said it was shipped through the legislature at the close of the session and was an oversight.

Neither the governor nor the conservation commissioner can change the law. That is the duty of the legislature exclusively. Formerly there was a law that gave the conservation commission the right to hold hearings and if advisable change the law for the benefit of the commission, but this was repealed some time ago.

The speaker said the fish and game committee of the legislature did not ask him for advice in regard to bills before the legislature. The legislature had been in session two months when he assumed the duties of his office.

The fish and game committee did not call upon the conservation commissioner for any information whatsoever on any of the bills which passed the legislature last year, he said.

## GAME REFUGE LAW

There was a lengthy discussion on the game public shooting ground and game refuge bill. This is a federal bill which provides for a license fee of one dollar to be charged those privileged to shoot migratory birds. Forty-five cents of the fee goes to the purchase of land for shooting grounds, for everybody in the country, 45 cents goes for the employment of game wardens to protect the game and enforce the law, and 10 cents is for the expense of administering the law.

The bill was before congress a year ago, but was defeated, and some of the congressmen from Wisconsin did not see it. It is before congress again and the game protective association agreed upon a comprehensive campaign in favor of its passage at the meeting Monday night. Members were requested to send copies of a printed resolution favoring its passage to each of the congressmen and United States senators from Wisconsin. Furthermore each member promised to write a personal letter to these representatives at Washington.

## RAINBOW VETS CAN'T HELP BUILD MONUMENT

The Appleton chapter of Rainbow Division veterans is not in a position to contribute anything to the fund that is being raised in America for the erection of a monument by General Henri Gouraud on the Champagne sector in France, but several members probably will give personal donations. The matter was discussed at the regular meeting of the veterans Monday night in Armory G. Letters from members of the division were read and the condition of several members who are in hospitals was reported upon. Elmer Reider, who is in a Chicago hospital and Ret Holcomb, who is at St. Elizabeth hospital, are recovering.

## MEMBERSHIP OF TEACHERS' ASSOCIATION IS DOUBLED

Growth of the Wisconsin Teachers' association from a membership of 6,251 to one of 13,174 in four years is shown in the February number of the Wisconsin Journal of Education. With the total 6,251 in 1919, the membership advanced to 7,793 in 1920 to 8,219 in 1921, to 10,770 in 1922, and 13,174 in 1923. Local organizations which have as members every teacher in the community are those of Antigo, Appleton, Beaver Dam, Berlin, Burlington, Cudahy, DePere, Eau Claire, Evansville, Port Atkinson, Moricon, Janesville, Jefferson, Kenosha, La Crosse, and others.

A. L. Wolfe, secretary of the state association, gave a report on the state convention at Milwaukee and outlined its program for the coming year.

Miss Laura Schultz, 1023 Sixth-st., returned Monday evening from Milwaukee, where she spent several days visiting her sister, Mrs. G. R. Lyman.

## CAR THIEF FORCED TO ABANDON AUTO

The disgraceful condition of the country roads was an expediting matter for the thief who stole a Chevrolet coupe in Menasha, early Monday morning. The car that was stolen from A. G. Blass, 419 Third-st, Menasha, was recovered by the owner two hours after it was stolen. Finding the roads impossible for making an escape, the thief abandoned the machine.

# INTRODUCE BILL IN CONGRESS TO HELP WOLF VALLEY

Seek \$25,000 Appropriation for  
Survey of Big Drainage  
Project

Copies of a bill providing for the preliminary survey of the Wolf river to ascertain some method to control floods in the Fox River valley have been received by officers of the Association for the Relief of High Water. The bill was introduced in the house of representatives by Congressman E. B. Brown and was referred to the committee on flood control.

The cost of the survey is not to exceed \$25,000. The Shiloh plan was drawn up at Oshkosh last year at a conference of riparians. It meets with the approval of power companies and land owners of the valley.

The bill:

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

"That the Secretary of War is hereby authorized and directed to cause preliminary examinations and surveys to be made of the Wolf river for the purpose of ascertaining some practical method to control flood conditions with special reference to the navigation of the waters of the Winnebago pool, and with reference to the effect of such control and relief upon development water power, such survey to include what is known as the Shiloh plan of diverting flood waters from the Wolf river to Green Bay. That there is hereby appropriated for such purposes such sum as is necessary to make such investigation and survey not exceeding, however, the sum of \$25,000."

## LEOPARD SKINS AND FLOWING HAIR—HIGH BEHELED SLIP- PERS AND TRAINS

Manager Frank Cook of the New Bijou has booked on Wednesday and Thursday "The Savage Woman," presented by Clara Kimball Young, which shows this celebrated star in the role of a young girl brought up in the jungle.

Renee (Clara Kimball Young) is mistaken for the reincarnated queen of Sheba while wandering about the ruined palace of the dead queen. She is blamed for a moment by flash-bulbs from her mirror while she makes her escape. Fleeing from one man she is caught by another. Lerier, a French explorer shoots her and binding up the wound, falls in love with her dusky beauty.

When Lerier returns to France, he takes her with him and she is happy in his house, until she realizes that she is being used for his simplicity. She returns to Almee Ducharme, her former love. In a rage, Renee destroys a relic which Almee had brought from Cyprus to Lerier and then remorseful sets out for Amyssinia to secure another to take its place. Lerier believes her to be dead, and wanders again to Africa, where the fanatic prince, capturing him, takes him to the palace ruins to offer as a sacrifice.

Renee is seeking her relic among the ruins and finds the mirror. This recalls former days and her clouded memory stirring, she calls aloud to Lerier, just as he comes to view. The prince's men see her and bow before their queen who walks straight to Lerier and falls on her knees. Thinking that they have captured by mistake, a mighty prince, the natives flee in disorder before his wrath can overtake them.

"ST. ELMO" REPEATS TRIUMPH  
IN FORM OF PHOTO-DRAMA  
The photoplay, "St. Elmo," a William Fox screen version of August J. Evans' novel of that name, which opened yesterday at the Elite Theater for a 3 days run is one of the most interesting romantic productions seen on the silver sheet for many a day. Perhaps one reason for this is that John Gilbert plays the impressionistic title role with that sincerity and dynamic intensity characteristic of his work. Another reason, of course, is that it is the first time August J. Evans' widely read novel has been screened.

The story—do you recall it?—has to do with the harsh changes in St. Elmo's character when he finds the woman who has promised to marry him in the arms of his best friend, the two of them plotting his own ruin. This is a tense moment. From this throbbing situation the story races with dramatic intrigue to a gripping climax.

The director, Jerome Storm, has handled the story with commendable delicacy and an eye for detail. John Gilbert excels himself as St. Elmo. His character delineation rings true at all times. He has invested his role with a sympathetic appeal and a romantic glamour that scores for him an individual triumph.

Barbara La Marr, as Agnes Hunt, the girl who so nearly ruins his life, is splendid, and so is Bessie Love as the girl who restores his faith and love. Others in the cast include Warner Baxter, Nigel De Brulier and Lydia Knott. If you enjoy a drama, the romance, don't miss this feature.

**THE SIX FIFTY**  
"The Six Fifty," Universal picture, a story of the well-known Broadway stage play of the same name, is the all-star attraction now playing at the Majestic theatre.

A notable cast, portrays the little group of characters in the powerful story. Renee Adoree, the charming little French actress, wife of Tom Moore, whose film career has been meteoric, plays the young wife; while Orville Caldwell, whom Elinor Glyn proclaimed "The perfect lover," portrays the young man.

# Subscriber Wants Vote On Return Of Jiggs, Maggie

A "solemn referendum" to determine whether Jiggs and Maggie should return to the Post-Crescent is suggested in a letter by an admirer of this couple. He hints that "things ain't the same" since Maggie and Jiggs left for other parts and suggests that a referendum in which readers of The Post-Crescent take part might show the missing couple just how much they are regarded in Outagamie.

For the benefit of the Jiggs' admirer and to let Maggie and her husband know how the folks hereabout regard them, an opportunity for a referendum is presented herewith. Readers of the paper are invited to indicate their preferences in the ballot printed herewith and mail the ballot to the Editor of The Post-Crescent.

Shall Jiggs and Maggie Come Back

YES ☐ NO ☐

trays the young farmer, a sturdy son of the soil jolted out of the rut of farm life by the peril of losing his wife. Bert Woodruff adds a touch of comedy in the quaint character part of "Gramp," the father of the young husband, which he acts in an imitable manner; while Niles Welch and Gertrude Astor are cast as faded social leaders in the city which the young wife dreams of.

It is a simple story with a big thought, when thoroughly weighed, and one realizes the bligness of the thought, not because the characters are spectacular, but because they are human. Hester Taylor, farmer's wife dreaming of release from drudgery, lugs at one's heartstrings even though we know she is wrong. One's sympathy goes out to Dan Taylor, the young husband, even though we realize he lacks gumption and deserves to lose so charming a wife as Renee Adoree becomes in this picture. We rejoice in his awakening even though we sympathize with him in the painful process by which he awakes in time to save his married happiness. That is why the story of "The Six Fifty" is great.

**EMBLEMS OF LOVE**  
Seldom do people pause to consider the significance of the well known quotation: "The light of the whole world dies when love is done." Yet some have paused, and considering, have envisaged a world bathed in the warm sunshine of love—which is idealism. And because they were practical idealists, they made this dream come true. The story of this accomplishment and its blessings is vividly depicted in a great screen drama, entitled, "Emblems of Love," which is soon to be presented by the Loyal Order of Moose.

Movie goers who have noted with regret the absence from the screen of Grace Cunard, former co-star of Francis Ford in the heyday of serial films, will have cause to rejoice in her re-appearance, signalled in an important role in "Progress Productions' great drama, of love, "Emblems of Love," which will be presented at Fischer's Appleton theatre, March 7 and 8.

Jane Thomas, versatile screen actress whose achievements include a principal role in "The Queen of Sheba," in "Headless Moths," and in "Queen of the Moulin Rouge," and scores of others, has a leading role in "Emblems of Love," the big heart interest drama released by Progress Productions, Inc., and which will be shown at Fischer's Appleton theatre, March 7 and 8.

A critic in New York City, one of a small group who witnessed a private exhibition of "Emblems of Love," a big interest drama which is soon to be presented in this city by Fischer's Appleton theatre, remarked at the conclusion of the showing, "Emblems of Love" is a human document, a screen treatise on human love and hope and understanding."

# 35 STUDENTS ON H. S. 'HONOR ROLL'

Thirty-five students' names appear on the honor roll of Appleton high school for the first quarter of the second semester. The largest number are from the sophomore class. Those who are "A" honor students have received three or more grades of 93 per cent while those who are "B" honor students have received two such grades.

The list of A students:

Beverly Murphy, Richard Neller, Marie Voelck, seniors; Elizabeth Earle and Ethel Radtke, juniors; Alice Brigham, Josephine Buchanan, Walter Hoppe, Marie Paltzer, Jane Steenls, Eva Tracy and Carl Voelck, sophomores; Mark Catlin, Marie Glasman, Martha Jantz, Helen Werner and Marjorie McCarey, freshmen.

The "B" list:

Ward Wheeler, Mae Eller and Carl Engler, seniors; Viola Reckman, Herman Brockhaus, Kenneth St. Claire, Theodora Reeve, Joyce Strutz, juniors; Lucille Manser, Elizabeth Stealing, Elizabeth Post, Marie Sarnen, Doris Thompson and Ariel Wicksberg, sophomores; Russel Denyes, Alice Gieschow, Cuthbert Ryan and Mary Schenke.

Archaeological research work which is being done by C. R. Fox, former Appleton postoffice employee, has taken him from his home at Three Oaks, Mich., to the south for a time, according to word received by his mother, Mrs. Viola Fox, 330 Second-ave.

Her son sent her a clipping from the State Times, Baton Rouge, La., where Mr. Fox is spending three weeks. This article describes his search there for the Indian Mounds which are occupying the major part of his study into historical lore. The former Appleton man is president of the Michigan Archaeological society and director of the museum of the Three Oaks.

Several Indian mounds have been found in Louisiana by Mr. Fox and he is making a survey of them. He declares in the article that he is not interested so much in the mounds themselves as in the history they tell. He also has traveled extensively in Mexico looking over the places which depict past civilization.

In speaking of his work, the archaeologist says in part:

"Actual history, as it is written today, is incorrect. In the first place it is biased by the writer's personal opinion, and in the second place no writer or anyone can possibly get all the facts. We can get nearer the truth by finding man's nature through the things he leaves behind.

"People in the primitive state did not think much about a future life. Now people are interested in God; they want to know who made things in the world. The scientific story the mound can tell seems to me to be the real basis of archaeological work.

"It seems odd that the Indians sometimes used to sit in their tents and starve to death because they did not think God wanted them to shoot deer, as some people believe today."

# Don't Call Us Professors, Mr. Rasey's Request

Few high school teachers claim to be professors or care to have that title given to them by well-meaning persons who merely wish to show respect. Leo C. Rasey, principal of Appleton high school, disclosed at a community meeting in New London on Sunday evening. Mr. Rasey said that "Mr." is the proper title for a high school teacher unless one cares to call him by his given name or something worse.

The points which the local school executive brought out in explanation included the fact that a professor is the head of a department in an institution of higher learning, usually a college. He said that to call a man a professor when he had no qualifications for the title was to place him in the same class with such persons as music chancellors and vanguard music teachers.

# A Plain Girl

Who made herself the rage of New York  
By Edna Wallace Hopper

Before me is my picture as a girl. Few girls would envy me my looks. But I made myself a famous beauty. And I've kept that beauty to a grand old age. I am still on the stage playing young girls' parts, and I still look a girl of 19.

I have helped many girls to careers of beauty. To many women I have brought decades of added youth. So I am convinced that millions can attain the benefits I got. I am going to help them do it. Now I am planning at every woman's call the very helps which made me what I am.

**White Youth Clay**  
I found my greatest help in clay. Not in the crude and muddy clays so many still employ. My Youth Clay, perfected by French experts, is white and clean and dainty. It is a super-clay, based on 20 years of scientific study. No other clay that I know is nearly so efficient.

Youth Clay purges the skin of all that clogs or mars it. It brings that rosy afterglow which so amazes and delights. It firms the skin, combats all lines and wrinkles, reduces enlarged pores. Many users, in 30 minutes, seem to drop ten years.

No girl or woman who once sees its results will ever go without it. The cost is 50c and \$1.

**My Youth Cream**  
My cold cream is another French creation. I call it my Youth Cream. It contains both lemon and strawberry. Also all the best that science knows to foster the fine texture of the skin. You have never known a cold cream to compare with this.

**My Hair Youth**  
My hair is my greatest glory. It grows finer every year. Dandruff, falling hair or gray hair have never come to me. Nor, to any friend who has employed my method.

These results are due to my Hair Youth. It is based on lifetimes of hair study. I apply it with an eye dropper, directly to the scalp. There it combats the hardened oil and dandruff which stifle the hair roots. It stimulates and fertilizes. Hair flourishes in such a well-kept scalp. No man or woman who sees what Hair Youth does will ever go without it. The cost is 50c and \$1 with eye dropper.

All druggists and toilet counters now supply Edna Wallace Hopper's beauty helps. With each one comes my Beauty Book, also a guarantee. No one can do you a greater kindness than to urge you to employ them. Go learn how much they mean. Edna Wallace Hopper, 534 Lake Shore Drive, Chicago, adv.

## NO CONFIDENCE POSSIBLE

Mr. Daugherty said he will not resign. Denby said the same thing, but changed his mind. The attorney-general will have to do so, too. Just at this moment he is belligerent. Not only does he refuse to get out, but says that if put out he will take his case to the country and make a fight on the administration. Since it is said Mr. Coolidge has indorsed Mr. Daugherty for a delegate at large from Ohio to the Republican national convention, it would appear that the president intends to keep him in the cabinet until he is successfully impeached or resigns of his own volition.

Senator Borah wants to impeach Mr. Daugherty. Mr. Lodge and some of the other party leaders want him to resign. They are fully aware that it is impossible to retain him in the cabinet and expect to carry the election in November. They realize that every day he remains a part of the administration, the chances for defeat are increased.

It is not a question whether there has been misfeasance or malfeasance in Mr. Daugherty's conduct of the department of justice. It is not a question whether he is involved directly in the oil scandal. It is a question of his competency and fitness for the high position he holds. It cannot be said that Mr. Daugherty has forfeited public confidence, for he never had public confidence from the beginning. His appointment by Mr. Harding was severely criticized within his own party, and we know of no single incident in connection with the activities of the department of justice that has in the least tended to change the original estimate of Mr. Daugherty. On the other hand, a great many charges have been made against him and the work of his department, and he has once before been subjected to impeachment.

Senator Walsh, who is the brains and driving force in the oil investigation, and whose integrity and fairness have been admitted on both sides of the senate, makes the statement that never at any time in any shape or manner has he received the slightest assistance from the department of justice, nor from any other department of the government. He and other senators imply that the secret service branch of the department, which is under the head of a close personal friend of Daugherty, is not available to the investigators, but is functioning for the protection of Mr. Daugherty.

Chairman Adams of the Republican National committee has injected himself into the Daugherty issue on the side of this discredited politician. His exaggerated and defiant statement can only add to the general public disgust with the Republican administration. Senator Borah states the case plainly, but truthfully, when he says the sole responsibility for the impossible retention of Mr. Daugherty rests upon President Coolidge. It is silly to talk about lynch law in connection with Daugherty. He never had any business in the cabinet in the first place and there could be no more complete indictment of his unfitness than the fact that the president was compelled to completely ignore the department of justice in its decision to take legal and criminal action in the oil scandal. Instead of having an outstanding lawyer, who enjoys

to the fullest degree public confidence, as attorney-general, the government in fact has no attorney-general, for that department ceased to function from the moment the oil disclosures were made. There is no need to either investigate or to try Mr. Daugherty. There can be no return of confidence in the administration until Mr. Daugherty goes.

## WISCONSIN TO THE FRONT

It was logical that Wisconsin, which has sought through state legislation to open up the private affairs of business and individuals to competitors and public curiosity, should attempt a similar invasion of constitutional rights by congressional legislation. An amendment was offered to the income tax bill by Mr. Frear providing that all income tax returns be opened for public inspection. Of course the house turned the proposal down, but in the brief consideration given it Representative Hawes of Missouri found the opportunity to characterize such legislation in its true light, when he said:

This amendment proposes that in order to secure the punishment of 100 or 500 crooks making dishonest tax returns, the private affairs of 6,000,000 people shall be published to the world. It violates every angle of Anglo-Saxon fair play. A man is entitled to some privacy. It means that we are having a new government in America. It seems that Wisconsin rules the house and Wisconsin rules the senate—mighty Wisconsin. Well, I will not follow the lead of Wisconsin when it goes into the privacy of the home.

Now, if Wisconsin will offer a resolution to abolish the army and navy, and another in eulogy of Eugene Debs, the record will be fairly complete. What we practice at home we ought to preach in Washington all the way through.

## AUSTRALIA TAXES ALL

Australia has taken the step urged upon the United States by Secretary Mellon and by the general will of the people—abolition of taxfree bond issues. Dating from January 1, 1924, neither the federal government nor the states and cities of that commonwealth are privileged to raise money by exempting investors from taxes they ought to pay.

There was an inevitable rush in Australia on the part of state governments to issue tax-exempt bonds, and they were promptly snapped up by buyers whose funds would have done the nation more good in industry. That is an indication that Australia's taxes, as well as America's, are too high; but it is also an indication that the taxfree bond market is better in that commonwealth. Here there are so many such bonds crowding for sale that often the market is weak and cannot take them up.

Australia will survive the last minute rush of bond printers, and soon forget it. Thirty years from now, when most of the maturities have been paid off, Australians will universally bless the government that freed them of the exemption evil, and of the dynasties of untaxed wealth which grew out of it. If the United States must take the slow method of constitutional amendment it is too bad congress has postponed the beginning.

## ISN'T IT TERRIBLE?

Let's talk about the weather—a most ordinary subject to be sure. Our neighbor's first greeting is a remark concerning the elements, and usually his last salutation is an expressed hope for a change. Our first interest in the newspaper is probably the weather. We're all free to admit our concern in this subject, and if it would do any good we'd tell old King Winter that he has worn out his welcome.

The invigorating frosty days have lost their vigor. Hours spent by the side of the stove or fireplace on a stormy day have lost their charm. The snow is dirty from the soot of hundreds of furnaces. The anticipation of more walks to clean is a nightmare. Shoveling coal bores us. Carrying out ashes is a dreadful necessity. The question arises as to whether or not our winter wearing apparel will hold out for this year. We are tired of being pent up indoors for days at a time. A slight draft will aggravate us. We hardly dare think of spring, yet we worship the thought. We're sick of this coldness. On with the slush.

New York woman paid \$400,000 for a pearl necklace, but she can save by wearing old shoes. No one will notice her shoes now.

A pumpkin in Fresno, Calif. weighs 83 pounds and would make pie enough to keep 300 people awake.

Mr. Adams says there is nothing wrong with our dollar bill. Isn't it a little short winded?

Senator Underwood is fighting mad these days, and so are the Philippines under Wood.

Movie stars are getting to be as bad as many other people. Fortune is their misfortune.

A Chicago boy of five who can play a saxophone needs spanking.

## SPRING HOUSE CLEANING

Well, folks, I apprehend it is about time to start spring housecleaning, and if you do not interpose too many or too vigorous objections, I am going to open the medicine cupboard, take out each item, look it over, and talk about it with you in a simple friendly way.

When we open the medicine cupboard the first thing I desire to call to your attention is that you will find nothing in it to suit your purpose if you are planning to kill anybody. This one feature might well serve to identify and distinguish my medicine cupboard from most of the medicine chests and emergency kits which enable people to do so much damage before the doctor arrives. I regret to say that my medicine cupboard is very unsatisfactory to have in the bath room of a household where there is a victim of melancholia or temporary aberration or perhaps, a superfluous child or two.

The cupboard itself is about 18 inches wide, 20 inches high and four inches deep. Give any handy man a \$70 set of tools and a \$45 work bench and he can make one in a few months. There are about two dozen spaces or pigeon holes in the cupboard, each to receive a particular item. Thus on the top shelf are seven four ounce bottles containing (1) boric acid; (2) sodium citrate; (3) glycerin; (4) aromatic spirits of ammonia; (5) aromatic syrup of phubary; (6) oil of sassafras; and (7) milk of magnesia. Each of these bottles requires a space about 3/4 x 2 1/4 inches.

On the second shelf are 10 one ounce vials containing (8) tincture of iodine; (9) flexible colloidion; (10) alum; (11) camphor; (12) acetyl-salicylic acid tablets; (13) phenolphthalein tablets; (14) half a dozen one grain copper sulphate tablets, and three empty ones for special remedies. These vials require spaces 1/2 x 1 1/2 inches.

On the third shelf are five spaces 3/4 x 3 1/2 inches, for (15) salicylic powders in tin; (16) mustard flour; (17) several tubes of sterile peroxide jelly; (18) several tubs of Old Doc salve; (19) a tube or two of liniment. No boxes of salve are allowed because they are unclean and uneconomical.

On the bottom shelf are four spaces 4 1/2 x 5 1/2 inches, for (20) Z. O. adhesive plaster; (21) adhesive tape in envelopes or carton; (22) absorbent cotton and (23) gauze.

We'll tell more about the medicine cupboard in a few days. Get ready to listen in.

## QUESTIONS AND ANSWERS

Everybody Has Worms

Do grown people have worms like the same as children; sort of flat white worms, places about two inches long or so? How would a person get them and what would you do about it? (Mrs. E. A. E.)  
Answer—There are two ways they are segments or portions of tapeworm. In this country the usual mode of infestation with tapeworm is by eating "measly" beef—beef which contains the larval form of the tapeworm. The larva may remain alive if the beef is eaten raw or rare, but thorough cooking kills it. Usually tapeworm infestation is not particularly injurious to health. It is advisable to take the specimens to a physician and if necessary submit to treatment. A simple and safe treatment for tapeworm infestation is risky. The popular notion that underweight means "tapeworm" is a mistake. In most instances of actual tapeworm infestation the individual is not underweight and has an ordinary appetite.

## The Vanishing Chin

I have been told that if I would use "Aqua Ammonia" on the hair underneath my chin and on the side of my face that it would soon disappear. Do you think this is harmful? (Mrs. S. S.)

Answer—Visible hairs may be rendered somewhat less conspicuous by occasional bleaching with peroxide, and some women believe that the bleaching effect of peroxide is increased by mixing a few drops of weak ammonia with it—weak ammonia is ammonia with water. Of course no such application will destroy the hair. Young women should not begin fussing with the down they have on their skin. The down is always discoverable if you search for it, and once you begin trying to "destroy" it you've started cultivating a beard. Perhaps the ill advised application of all sorts of cosmetics, together with the rubbing of the face, tends to stimulate the invisible down to heavier growth. The average complexion is best cared for by a healthy let alone policy.

## LOOKING BACKWARD

## TEN YEARS AGO

Tuesday, Feb. 24, 1914.

Dr. L. J. Heckert was at Green Bay on business. E. L. Ullman returned to Antigo after having spent the weekend with Appleton relatives.

Miss Susan Anderson was able to be at her music store for the first time in several weeks.

Mrs. F. E. Saecker and daughter, Mrs. H. F. Heckert, left for Mount Clemens where they expected to remain for two weeks.

Fire Chief George P. McGowan visited the No. 1 engine house for the first time since he was overpowered by smoke at the plant of the Fox River Paper company in week previous.

A dollar for any sent in the house and a case of first come, first served was to be an attraction to fight fans for Thursday evening.

Mrs. Anna Margaret Kaehler, 90, died the previous Saturday at the home of her daughter, Mrs. John Bartels, 811 Superior st.

Fire partially destroyed H. C. Freeman's garage the previous Saturday evening. An electric automobile valued at \$2,000 was damaged beyond repair.

The fire department was called to Bushy's business college, where a chimney burned out.

Indications were there would be fully a dozen bidders for the contract for the construction of the new Y. M. C. A. building.

The Rev. Edward P. Gardner, formerly of Appleton, died at his home in Chester, N. J.

H. S. Bateman, 74, died at his home, 566 North st.

## TWENTY-FIVE YEARS AGO

Tuesday, Feb. 28, 1899.

J. H. McCormick of Green Bay was an Appleton visitor.

Peter Tubbs of Seymour called on Appleton friends.

Mr. and Mrs. Lew A. Cates of Escanaba visited relatives and friends here.

The fire department was called to the home of L. F. Pushey on Summer st. where a chimney burned out.

Miss Mary Wirtz returned to her position at Mandel Bros., Chicago after a month's visit with her parents.

An entertainment for St. Patrick's day was being arranged. It was to be held at Columbia hall.

August Rehmer of Black Creek sold his farm of 100 acres to Fred Peters for a consideration of \$42,000.

Albert F. Huetter, 38, died of grip at his home on Durkee st.

Oscar Thimany of Kaukauna won first prize at the skat tournament given by A. L. Smith the previous evening.

## LOVE UNREQUITED

My eyes are crossed—oh yes, that is true.  
But they really are a lovely blue;  
My legs are bowed—oh yes, that is so.  
But my skirt's so long, my legs don't show;

My hair's not pretty—that is no lie,  
But I have tinted with some dye;  
I sent him my picture—since that he's not written;  
I can't figure out why he gave me the mitten.

—Bella Donna.

You are mistaken, Bella Donna.  
When he sent you that mitten he merely wanted to convey to you—though ever so subtly, that he is ready to give you the "glad hand."

Cheer up and learn to be an optimist.

## MAKING A NEWSPAPER

Several large groups of boys and girls from the Appleton high school were conducted through the Post-Crescent plant Monday so that they could write an essay on how a newspaper is operated. Since some of them complained tearfully that they were too far from the guide to be able to write anything, we shall endeavor to help them out a bit.

A paper gets its name from the litter on the floor.

The girl reporter chews gum to keep in practice for the rag.

The editor quiets his nerves "by smoking whole cartons of cigarettes."

Rollie is kept in a cage bearing the warning, "Don't feed him raw meat."

Receiving telegraph news is a nice soft job.

Linotype operators are human beings after the paper goes to press.

The real name of type lico is bacillus inkus typothetae.

Oshkosh—Luther Davis, proprietor of a soft drink establishment in Oshkosh, just north of the city of Oshkosh, and Harry Gallagher of Manitowoc, employed by Davis as his assistant, were held for arraignment on the charge of selling intoxicating liquor and of destroying intoxicating liquor, as the result of a raid Saturday night by a group of deputy sheriffs.

Thomas Dolan, who was held with them at the county jail was not charged with any offense, but was held as a material witness until after the examination when he was permitted to go on his own recognizance. Seventeen others, including six women, were in the group taken into custody at the time of the raid, but none of them was charged with any offense, although all were ordered to appear at the preliminary examination.

## The Question Box

(Any reader can get the answer to any question by writing to The Appleton Post-Crescent Information Bureau, Frederick J. Maskin, Director, Washington, D. C. This offer applies only to questions of legal, medical and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. While your question is plainly and briefly given, full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. Should the Chinese game be spelled Mah Jong or Mah Jongs? R. E. F.

A. R. E. Foster spells the name "Mah Jong," explaining that the largest importers of sets call it "Mah Jong," the second "g" being their trade mark.

Q. What does "Caramba" mean in English? C. A. C.

A. The literal translation of the Spanish exclamation "Caramba" is "Fah! Strange."

Q. How many generations have there been since the people in the Mayflower landed? A. M. H.

A. A generation is reckoned by some as 33 years, and by others as 25-years. Actually there might be quite a variation in the number of generations of descendants in the different Mayflower families. In 300 years there might be from 8 to 15 generations.

Q. What is the basis between sweet and sour? E. B.

A. The chemical difference between sweet and sour is probably based upon the difference in intramolecular arrangement. The psychological difference is due to the fact that the tongue contains and organs, some of which are stimulated by sweet things and others by sour. These are known as taste buds and because of the functioning of these buds, we are able to differentiate between sweet and sour.

Q. How many cooperative organizations of consumers are there in the U. S.? E. K.

A. In 1920, according to the Department of Labor, the consumers' cooperative societies of the U. S. had 101,147 members, with an aggregate paid-in share capital of \$11,290,973. The number of societies is not given. Agricultural co-operative societies have a total membership of more than 600,000, with a capital slightly in excess of \$1,000,000.

Q. How many children of school age in Germany are destitute? E. H. F.

A. Dr. Haven Emerson says, that there are 2,000,000 school children and 500,000 younger children for whom money for supplementary feeding and educational clothing ought to be provided for the next six months. He says that children of Germany need at least \$10,000,000 at once from the United States. Unless it is provided, thousands of children will suffer.

Q. With what European countries has the United States no diplomatic relations? A. T.

A. Russia and Turkey are the only countries of any size with which the United States has no diplomatic relations.

Q. How many women are there in the English House of Commons? E. C. G.

A. There are now seven women in the House of Commons. The United States has but one woman in the House of Representatives, Mrs. Nolan of California.

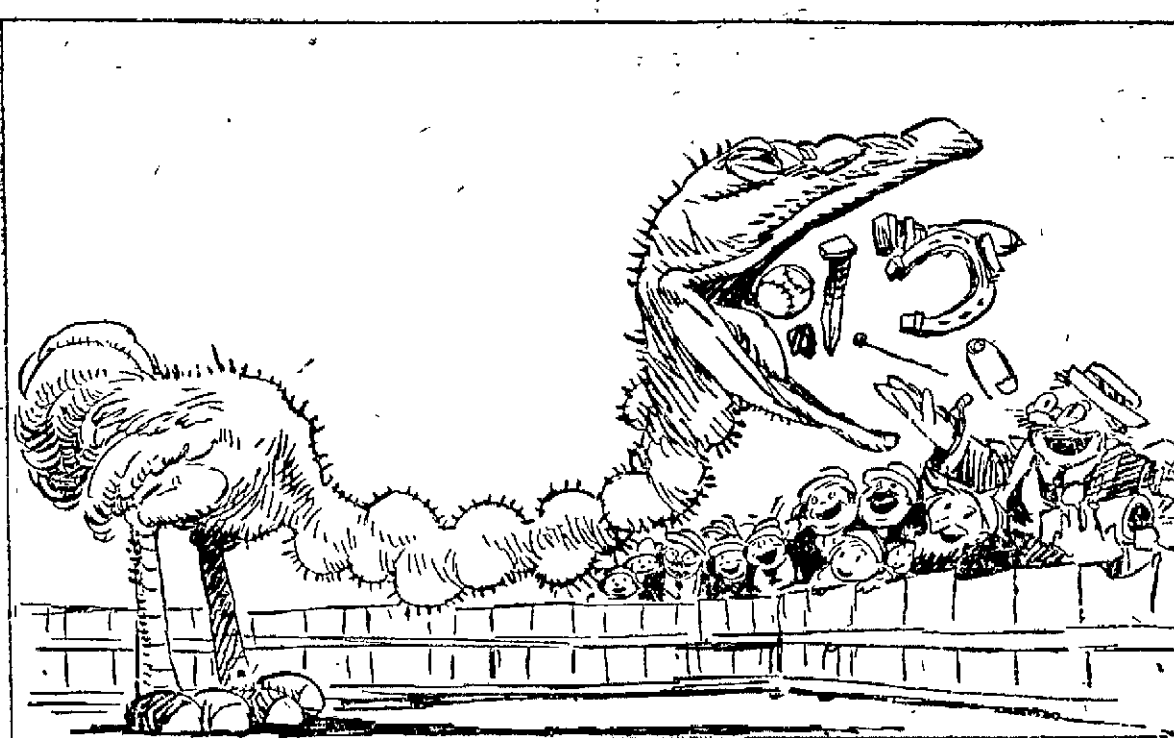

Q. Was Tom Thumb an American? F. S. M.

A. Tom Thumb was the professional name of Charles S. Stratton. He was born at Bridgport, Connecticut, January 4, 1838, and died at Middleboro, Massachusetts, July 15, 1882. His parents were normal. The child, however, ceased to grow in height at seven months. He was 28 inches tall.

Q. Can you inform me as to the number of languages the Pope speaks? M. B.

A. An American who recently had an audience with the Holiness says that the Pope speaks thirteen languages. She adds that he has a kind of uncanny understanding of the language which his visitor speaks, and as he passes down the line of kneeling pilgrims, he recognizes from Italian to Spanish, French, German, English and others, as he perceives the nationality of the one whom he is to address.

## Local Club Might Join Art Society

Art Department of Womens Club Considers Affiliation With Art Federation

It is very probable that the art department of the Appleton Womens club will become a member of the American Federation of Art, closely allied with the American Federation of Womens clubs. Plans for this move on the part of the local art department were discussed at a meeting Monday afternoon in the Appleton Womens club. Should it join the national organization, the local chapter would be entitled to three free art exhibits each year and three lectures with stereoscopic slides. The lectures and exhibits would represent the finest work that it is possible to produce in this manner.

Mrs. Emma Herrick read a paper on American glass and Miss Irene Albrecht read one on three Italian artists, Botticelli, the Lippi and De Vinci. A splendid response was shown among the members when they answered roll call with current event items from the art world.

The hostesses after the meeting were Mrs. Len Graef and Mrs. W. E. Rogers.

## HOUSE TO PASS BONUS, FREAR LETTER CLAIMS

Blackwood—James A. Frear, congressman from the Tenth district, according to a letter just received, believes that the adjusted compensation measure for American veterans of the world war will be passed by a two thirds majority in the house of representatives immediately after the tax bill has been completed. The bill will pass the senate also by a large majority, Mr. Frear wrote.

## MOTHER!

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even if cross, feverish, bilious, constipated or full of cold, children love its pleasant taste. Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother you must say "California." Refuse any imitation. adv.

## Prizes For Costumes At Masked Dance

The funniest costume, the most clever costumes for a couple and the prettiest costume will win prizes for the people who wear them at the "Ladies Mask Ball," which will take place at Elk hall on Wednesday evening. The party is being given for all the girls in the city by the sports council of Appleton Womens club. Three feature dances, "Lindy Lee," "Jumping Jacks" and a gavotte will be given by members of the aesthetic dancing class. An orchestra will be furnished for dancing and there will be serpentine and confetti to make the party gay.

Fifteen members of the Hustlers club of the Y. M. C. A. took a hike Saturday afternoon in the direction of Lakeside park on the shore of Lake Winnebago, but did not go as far as the lake. The depth of snow retarded their progress.

## RECOMMENDED BY HER DOCTOR

Found Strength by Taking Lydia E. Pinkham's Vegetable Compound

Kankakee, Illinois.—"My mother-in-law always took your medicine for a long time, and then in the Change of Life it did her so much good that she induced me to take it for a weakness I had for a year and a half. It has strengthened me and now I have a nice baby boy. I do all my own housework now, and I recommend Lydia E. Pinkham's Vegetable Compound whenever I have the opportunity. I am taking it again for weakness, as my family doctor has recommended it for this purpose."—Mrs. HARRY COULOM, 984 North Harrison Ave., Kankakee, Illinois.

**Real Evidence of Merit**  
For the relief of female weakness, pains and backache, nervousness and irregularities, with other troubles common to women, Lydia E. Pinkham's Vegetable Compound is a dependable medicine.  
Its worth is thoroughly established by such letters as the above. There are women everywhere who, having received benefit, gladly tell other women about it. For sale by druggists everywhere.

## BOOSTER MEETING PLANNED TONIGHT FOR NEW C. OF C.

Little Chute People Will Gather  
to Consider New Commer-  
cial Club

Special to Post-Crescent  
Little Chute—Business men and other residents of the village will hold a booster meeting Tuesday evening at the village hall to consider organization of a chamber of commerce. It is expected that those attending will approve the idea and provide the machinery for formation of a chamber. Village officials have felt the need for some time of a civic body that would sponsor and promote activities which ought to be a part of the community life here. They met with a few of the business men about a week ago and held a conference with Hugh G. Corbett, secretary of Appleton Chamber of Commerce. They have given the matter considerable study since and visited the Appleton office to learn what work was possible. They are prepared to present their findings and make recommendations to the villagers. A large attendance is desired so the project may receive a big popular support.

## DUNBAR QUARTET IN LYCEUM PROGRAM

Kaukauna—The third and last number of the Community Lyceum course will be presented at the Auditorium next Monday evening, March 3. The last number was to have been given next Saturday but the date was changed upon request of the lyceum bureau. The Dunbar Male quartet, considered the best male quartet on the lyceum or chautauque platform, will furnish the entertainment. A special campaign is being made this week in the sale of single admission tickets. The price of the season tickets for the three numbers was placed so low that there is danger of a deficit unless a number of admissions are sold for the final program.

## STOP IT!

Make Your Own Cough Mixture  
for the Whole Family and  
Save Money. It's Easy

When you can make in your own home a wonderful cough mixture far ahead of any you can buy ready made, why not do it?

This home made mixture will stop the most stubborn cough and is fine for chest colds and acute catarrh. Children love it.

Get from Schilntz Bros. Co. or any druggist one ounce of Farnint (double strength) to this add a little granulated sugar—as directed and enough water to make half a pint—that's all there is to it.

Like a soothing, healing poultice one costly substance in this home made cough mixture, spreads itself completely over the membrane of the throat. This causes the most stubborn hanging on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

# HOFFMAN CO. GETS CONTRACT FOR NEW HOME FOR SISTERS

Construction of Building To House Teachers Will Start Soon

Contracts for building the new home for the sisters of Notre-Dame who teach St. Joseph school, have been awarded to the Hoffman Construction company. The heating contract was given to the W. S. Patterson and Company, the plumbing to Wenzel Brothers and the electric wiring to the Landstadt Electric company. The building is to be completed by August 15. The house is to be of brick and stucco construction with the entrance facing High-st. The property is north of the residence of A. Peerenboom at 900 High-st. There is to be a large community room that is to contain desks for all the nuns, a chapel, two parlors, music and sewing rooms. The dining room and kitchen will be in the basement and there will also be a breakfast room. There will be several large porches that will overlook Jones' park. The sleeping rooms will be on the second floor.

The building probably will be heated by oil, because of the convenience of the system. The architect is Edward A. Wettengel of Appleton.

# ENDS TWO DECADES AS S. S. TEACHER

Judson G. Rosebush Draws on Long Experience for His Observations

Judson G. Rosebush will complete his twentieth year as superintendent of the Methodist Sunday school next week. In a recent address before the Sunday school institute in Green Bay, Mr. Rosebush told of the problems which have caused him to have certain convictions concerning such a position.

It is Mr. Rosebush's opinion that Sunday school classes should have names because names carried from year to year and from decade to decade become historic in the community. They suggest in themselves the habits, customs and traditions which are the cement which holds society together, Mr. Rosebush believes.

That it is only through giving the men something of value for their daily lives that men's Sunday school classes can be kept together is another conviction which 20 years experience has given the superintendent. Much depends on the personality of the teacher and the holding together of a men's class is one of the most difficult tasks which confront the Sunday school organization.

Young people in their teens are attracted to the Sunday school through their many social impulses. The good teacher of young people develops the interests which are awakening in them at this period.

Mr. Rosebush feels that there is no substitute for lessons of the Bible. He said all who attend Sunday school classes are interested in the fundamental truths that are found in the Bible. It is Mr. Rosebush's opinion that the keynote of the future success in the church is the Sunday school.

# HUMAN INTEREST TOUCHES IN MAILMEN'S MOVIE

It is a matter for conjecture as to how many pounds of foot-candle powder is consumed in a year by Appleton mail carriers. Considering their steady tramp of 10 to 15 miles every day over cement sidewalks, porches and stairways, it is a wonder that there are not more cases of "hoof" disease.

Any letter carried will tell you what a fine treat it is for a tired mail man to come home at night and soak his blistered feet in a tub of hot water. But when the carrier's son plays a lively tune on the fiddle, mother may

# FARMERS WANT TO BE ON NEW ROUTE

Farmers living near New London who get their mail through either the Shiocton or Hortonville offices are considering taking up their difficulties in mail service with Congressman George J. Schneider. Many of these farmers are nearer New London than Shiocton and Hortonville. J. J. Denmore who lives towards Shiocton is on no mail route at all and consequently does not have mail service.

The people interested sent a petition to Washington last year asking that there be a change of routes. No action has been taken by the postal inspector at Green Bay and no explanation for the delay has been made. These people get service from the New London telephone exchange attend New London churches, employ New London physicians and do most of their trading in New London, therefore they think they are entitled to mail service out of that city.

think it pretty hard on her clean floor, if the music becomes too lively, for it is likely to cause Dad to do a jig in the tub, as in the case of "The Mailman," feature motion picture which will be shown at the Majestic theater the first week in March under the auspices of the Postoffice association.

"The Mailman" is said to be full of amusing touches of the household life of an ordinary mail carrier. On the other hand there are plenty of sensational scenes, such as the torpedoing of a United States mail vessel, and the pursuit of the mail robbers by warship and airplanes.

Proceeds from advance tickets for this motion picture will go toward the postoffice benefit fund for sick and deceased members, and their families.

# The Best Cough Syrup is Home-made.

Here's an easy way to cure a cough and get the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? Thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will soon earn it a permanent place in your home.

Into a pint bottle, pour 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments. To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

# Local Man's Slayer Will Face Trial

The man who shot Henry Abendroth of Appleton two years ago at Harding, Mont., is to be brought to trial, according to word received here. E. L. Williams, city clerk, received a telegram Monday morning from the prosecuting attorney asking for the address of the slain man's parents. It is expected that relatives will be called to the trial.

Abendroth was shot to death in August, 1922, at Harding, Mont., when a man offered to shoot an apple off Abendroth's head. It is not known here on just what count or degree of homicide for murder the slayer is charged.

The slain man's father, Edward Abendroth, lives on the School Section, Route 3, Appleton. His mother has been dead for some years. Police here were notified of the young man's death about a week after the shooting.

Miss Leah Davis returned to Milwaukee Sunday evening to resume her teaching at South Division high school, after spending three days visiting her parents, Mr. and Mrs. A. H. Davis, 768 Sampson-st.

# DR. EDDY SPEAKS IN CHAPEL HERE

Many churches are omitting the usual Thursday night prayer meetings so that those who wish to hear Dr. Sherwood Eddy Wednesday and Thursday in Memorial chapel may do so. Dr. Eddy is secured through the Y. W. C. A. and Y. M. C. A. of Lawrence college.

The speaker has an enviable record as a statesman, student and religious worker, and his messages represent the culmination of years of travel, study and strenuous activity in the world situation. His knowledge of the world situation is unusually extensive, for fifteen years of his life was spent among students of India, China, Japan, and Near East and Russia. During and since the war his work has carried him to the front and to the stricken countries of Europe and Turkey since the armistice and more recently visited the principal centers of the Near East, making a study of the war between the nationalists, Armenians, Greeks and the threatened Bolshevik invasion.

# OSHKOSH SEEKS PROPERTY FOR TOURIST CAMPSITE

Oshkosh will follow the example of Appleton in acquiring a camp site for tourists. The camp will probably be located on the shores of Lake Winnebago. The Association of Commerce has decided that the city must not be without a haven for tourists.

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, CONTINUED

I expect, little Marquise, I was so completely engrossed in John and my wedding that I did not really look at Sydney Carton. I cannot convey to you my surprise at finding that he is perhaps the handsomest man I have ever seen. He looks at least five years older than Jack, although they were in the same class at college; consequently there cannot be more than a year or two difference in the ages.

Perhaps, however, it is because his hair is that beautiful steel gray that we sometimes see framing a young man's most intellectual and ascetic face. Great, sleepy, brown eyes, that are habitually serious but which at times become transparent windows through which a mischievous laughing character shows itself—eyes that seem always to take you into their confidence.

I tell you I was very proud when I entered the restaurant with Sydney on one side of me and the striking Viking blondness of Jack looming up on the other. It may have been because I was so conscious of the fact that rarely had a woman entered that room with two such splendid specimens of masculinity that I seemed to feel a hush in the conversation and then a rapid buzzing which told me that we were the observed of all observers.

I was thankful that I was looking my best and had on one of my troussseau gowns that I had worn very seldom. It was simplicity itself, a white hand-made frock which Boue Seurs only can make. I remember thinking at the time mother bought

## Adventures Of The Twins

THE HOUSE THAT JACK BUILT.

There was to be a party in the House That Jack Built. A sort of house warming, you might say, for the house was just finished, and Jack and his mother and Jill, his sister had just moved from their old house on Pippin Hill to the pretty little cottage on Broom Street, named in honor of Mother Goose.

Jack thought they ought to chance the name of the street to "Dust Pan" in honor of Daddy Gander, as Mother Goose was away so much. But Daddy Gander wouldn't hear to it. He said it was bad enough to have one secret to keep without another one to worry him. He meant the secret about the sign that he and Tom Tinker had placed round the sign which said "Mother Goose Her Land." They had turned it over and printed "Daddy Gander His Land" on the other side.

Well, anyway, the party in Jack's House on Broom Street was going to be a wonderful affair. Peter Peter Pumpkin Eater helped to decorate, and to use his own words, as he had more empty pumpkin shells than fifty growing lobsters. He said he would set Jack's Lantern faces on every one and put candles inside, provided the Candle-stick Maker would donate them for nothing.

What's that, my dears? Fifty growing lobsters wouldn't have any pumpkin shells? Why, of course not, they would leave empty lobster shells! how stupid of me! But I do believe you knew what I meant all the time.

But to get back to the party: If we don't stop talking about decorations and lobster-shells and so on the party will be over and there won't be any room to tell about it.

And Misses Peter, who was no end grateful for the Twins helping her to get a nice new dress, offered to make some pumpkin pies.

So I will say Peters did their part to make the party a success.

And the lakeman sent word that as there would likely be a few like Jack Horner, who didn't care for pumpkin he would be most happy to bake a big mince pie and mark it with "J" instead of "T." He didn't say

## SCALES USUALLY ACCURATE, HODGINS SAYS IN REPORT

City Sealer of Weights and Measures Condemned Only 9 Scales

To make certain that Appleton folk get true weight and measure of the wares they buy, Joseph A. Hodgins, city sealer of weights and measures, was active in various ways, it is seen from his annual report.

He not only investigated scales, weights, measures, inspected milk samples but conducted his so-called "try-out" work in which he would investigate the weight and measure of certain commodities purchased.

Mr. Hodgins reports that only a small amount of shortages were discovered in his try-out work, and these shortages were mostly trivial and made without any intent of cheating. Occasional shortages in cost, he says, were mostly due to the scales on account of snow or ice freezing around the platform, and where this happened the dealers made good in each case.

He spent 13 days in assisting the milk inspector in testing samples, at which 195 tests were made. A total of 276 business places were inspected and 31 re-inspected. Of 459 scales, such as counter, hopper, suspending, computing, wagon, portable, dormant, spring beam, slot scales, etc., 472 were found correct, 9 were condemned, 8 were condemned for repairs, and 65 were adjusted. Of 335 measures, 323 were found correct, and of 1049 weights all but four were correct. Nineteen of 191 containers were incorrect.

In 436 visits in his try-out work, he found 1,463 articles of merchandise correctly weighed or measured and 53 incorrect.

## WOULD PUT BOUNTY ON STANDARD WIDTH SLEIGHS

A novel method for the introduction of the standard width sleighs has been inaugurated in the town of Calumet which borders on Appleton. Approximately 75 voters of the town have signed a petition calling for a referendum vote which if adopted will credit users of standard width sleighs with \$5 a year on their road tax for a period of three years and eventually bring into use this type of sleigh by every farmer in town.

This action is taken because of the fact that when a narrow sleigh breaks open a snow-filled road, it does not help to make a path for motor vehicles and wagon traffic. The usual width of a sleigh is 36 inches, while average automobile and wagon makes a 56-inch track.

The state legislature two years ago passed a resolution requiring all farmers to adopt standard width sleighs within three years. The last legislature repealed the law.

## Wonderful Creations In Decorations For Mantles

There are few people, no matter if they have no home of their own to furnish, who are not interested in lovely china or tableware. For the delicate material and gorgeous colors arouse interest in most every one. But styles change, and every season introduces some new fancy, often reviving china of olden years. There are women who revel more in a luxurious and well appointed house than in the finest creations of the costumers' art, and it is these women who probably will be more interested in the tale of new colors, design and style of what is the reigning in china of the more decorative type.

Candlesticks have always been favorites, and at present they are being displayed in most of the gift departments. They are made of almost any thing, brass, glass, compositions of all sorts, and china and are shown in every conceivable color. Many of them are made of china and finished with a lustre, of which there are several grades, dull, medium and high. The high lustre is the most popular to the average person, but then it depends upon the color as to the becomingness of the lustre. The delicate blues and pinks are much more attractive with medium gloss, while the brilliant orange and flame colored articles are gorgeous when finished with the high lustre.

**COME IN SETS**  
Most of the candlesticks are in sets, and often a comport or fruit bowl is contained in the set. These often are of the same material, but beautiful combination may be had by contrasting colors. Some of the bright orange comports look stunning when placed on a black base, either of metal or china, for it seems to set them off better than anything else.

Fruit bowls are considered one of the prevailing modes in table centerpieces, but these are quite like the candlesticks as to material. Some of the loveliest sets, including the sticks and bowls, are made of polychrome, an expensive material, usually a composition, and is decorated with flowers and designs of most every color, but is a dull finish, unlike the lustreware. The polychrome sets range in price from \$3 to \$4 for the average sized

candlestick, to \$15 for the more elaborate single stick, and the bowls are at all prices, a few dollars for the most simple ones, and prices that make you whistle through your teeth for the more elaborate articles.

**SATIN FINISH GLASS**  
A beautiful bowl that sells for \$15 is made of polished metal and is upheld by four metal elephants. It stands on a small base and is one of the most attractive things imaginable. It is supposedly made in the orient, and every line and curve of the bowl and elephants makes you think of the glitter of the east.

Colored glass with what is called the satin finish has been displayed greatly in many of the stores, usually in console sets, which consist of three pieces, candlesticks or their equivalent and some sort of a comport or bowl. Many people use artificial fruit or flowers, but in some places it was said that this is becoming passe.

Lovely Wedgewood is shown by a few dealers, but as this is so expensive, they have little call for it. This china is made in England by descendants of the original Wedgewood family and usually has a raised pattern or webbing on it. Some have

# Why SOLITE

(REG. U.S. PAT. OFF.)

## A PERFECT GASOLINE

# Is a Better Gasoline

**I**F you have used Solite you have had ample evidence of its superiority over the other so-called "high-test" gasolines—but perhaps you would like to know why it is so much better.

In a word—because it is made by the Burton "cracking" process.

"Cracking" is a trade term used by refiners to describe the processes by which certain fractions of petroleum are transformed into those highly volatile compounds needful to produce a volatile gasoline that does not sacrifice power.

"Cracking" is a term susceptible of gross misinterpretation.

Some competitors have seen fit to turn the term to their own ends by making it appear that a cracked gasoline is inferior.

Such misrepresentation is misleading and that it is a misrepresentation is attested by no less an authority than the Bureau of Mines which stated in a Department of Interior Bulletin—

"There is reason to believe that, instead of being inferior, the cracked gasolines are really superior for use in automobile engines as regards both mileage and power obtainable."

The Standard Oil Company (Indiana) has manufactured and sold well over two billion gallons of cracked gasolines.

The Standard Oil Company (Indiana) recommends Solite — A Perfect Gasoline—as a highly volatile gasoline that will give you better service than so-called "high-test" gasolines—because Solite drives the piston the full stroke under power.

# LAWRENTIANS SWAMP MICHIGAN MINERS, 48 TO 11

## Freshmen Make Good As Blues Walk Away From Husky Invaders

Coach A. C. Denney Gives Yearling Stars Chance in Contest on Alexander Gymnasium Court.

Lawrence Monday night swamped the Michigan College of Mines quintet, 48 to 11, in a massacre staged in Alexander gymnasium. The Miners were all big, lanky men and started off like a bunch of stars. They drew first blood a few seconds after the game had started, but the Lawrentians soon overtook them. After the Blues hit their stride, however, they walked away, leaving through the Miners' defense almost at will. Ashman's starved for the Lawrence quintet on the offense, while Zussman had the best of it on defense. Every member of the Blue team played a wonderful game, and the Miners were rushed off their feet. Deward, Michigan forward, led his mates in scoring.

Keese, husky Michigan guard, dropped two freethrows through the ring on Ashman's foul in the first minute of the game, but Hubert caged the ball from the field immediately after and Christoph added a point on Hag's foul. Ashman followed with a couple of baskets in rapid succession, after Keese and Deward had caged two from the field. During the rest of the half every man on the Lawrence five scored at least two points, while Michigan copped but one on Deward's freethrow. When the half ended, the Blues had 22 to 7 for the Miners.

**BLUES WIN HANDS DOWN**  
The second half was a worse walk away than the first. Coach A. C. Denney took advantage of the opportunity to give his frosh a tryout, and sent in Brisco, Heideman, Mills and Kosbab. The yearlings looked as good as the regulars and every one of them did more than his share. Cooke, who had been out of the game for several weeks and was declared ineligible, came back and scored a couple of baskets during the few minutes he played.

The Lawrentians had little difficulty in getting the ball away from their slowed rivals, and their brilliant passing attack had the Miners puzzled. Ashman was on the ball every minute and his follow-ups often drove the ball through the ring after another player's shot had gone wild. The game ended, 48 to 11, just as Hubert caged the last ball.

The lineup: Michigan—Deward, R.F. Warner, L.F. Hag, C. Keese, R.G. Johnson, L.G.

Lawrence—Zussman, R.F. Hubert, L.F. Ashman, C. Brisco, R.G. Christoph, L.G.

Substitutions—Ody for Hag, Graham for Warner, Heideman for Hubert, Mills for Heideman, Collings for Mills, Kosbab for Ashman, Heideman for Zussman, Hubert for Collings, Cooke for Kosbab, Ashman for Cooke, Collings for Heideman.

## BRavo GIRLS BEAT POST OFFICE TEAM

Bravo Girls of the Aid Association for Lutherans Sunday afternoon humbled the Post Office Specials two out of three games in a match rolled on the A. A. L. alleys. The Postmen took the first game, 855 to 744, but fell down on the next two and dropped the match, 2312 to 2312.

Henry Wichman rolled high score for the Bravos when she toppled 483. H. Brinkman of the Specials rolled 491, with H. Zschachner on his heels with 457.

## CUE STARS CLASH IN CHALLENGE TILT

Pocket billiard fans will have a chance to watch a series of games in the Carr and Tanson parlors here, when two teams of cue stars lock horns here in a 300-point challenge match. Drexler and Selig will oppose Liehen and Jabas on the green tables. They will play three blocks of 100 points each, the first of which is scheduled for Thursday.

Liehen and Jabas represent Appleton in the Fox River Valley circuit, and have made a fair showing. Drexler and Selig also have played in a number of match games, most of which they have won. The two teams are evenly matched, and it is expected that play will be close.

New York—Jack Dempsey, world's heavyweight champion will undergo a minor surgical operation Tuesday or Wednesday.

### LAST WEEK'S RESULTS

Appleton 27, Kaukauna 22.  
Neeah 25, Wrightstown 17.  
Little Chute 2, Menasha 0 (forfeit).

Citizens National Bank team of the Fox River Valley Basketball League Saturday evening defeated Kaukauna, 27 to 22 in a close game played on the Appleton Y. M. C. A. court. The Bankers got off to a flying start and when the second quarter started were at the long end of an 18 to 6 score.

Kaukauna came back strong in this period and before the Appleton men could stop its rush the score was tied, 18 to 18. The Bankers managed to drop a two point lead when McKenzie caged the ball on two freethrows just as the whistle blew.

The Bankers outplayed the fighting Electric City men in the second half and copped the game, 27 to 22.

Ott was the mainstay of the Appleton, while the teamwork of the visitors men carried them to victory.

Saturday the Bankers will play off a postponed game with Neeah at the Y. M. C. A. here.

## YANKEES SURE TO REPEAT, SAYS STAR TWIRLER

Joe Bush Claims New York Americans Are On Way To New Pennant

Philadelphia—Joe Bush, star pitcher of the New York Americans, who has wintered in this city, is positive the Yankees are on their way to a fourth pennant.

"Don't see how any club in the American League has a chance to beat us," replied Bush, when asked for his opinion on the outcome of the race.

"The Yankees are a stronger club than last year, while none of the contenders have materially strengthened their clubs."

"Cleveland gets a good first baseman in George Burns, from Boston, but loses two mighty good men in Catcher Steve O'Neill and Second Baseman Bill Wambach."

"The Cleveland pitchers are going to miss Steve O'Neill. He's still a great catcher even if he has slipped a bit of late years. It means a great deal to a pitching staff to have a fellow like O'Neill to work with."

"Detroit has a team with much power, but I can't figure where the club is going to get enough consistently good pitching to beat us out."

"Two clubs certain to be much stronger and may prove troublemakers are Boston and Philadelphia. Connie Mack's added considerable batting punch and Lee Fohl will turn out a club at Boston that isn't going to finish in last place."

"True, Bob Shawkey and myself are not going to be any better but if we pitchers turn in just fair work, the club will carry us along to victory."

### Others Interested

There is quite a number of cities nearby that might be interested in a baseball league of this type. Menasha has been angling for every day baseball for quite a while and it is believed it would support a venture like the one outlined. Then there is Green Bay, Kaukauna, Oshkosh, Fond du Lac, Waupun and Antigo which also might be interested.
Nothing definite has been done about four day a week ball but it is believed here that it can be made successful.

## Next Heavy Champ

You gaze herewith on the facial likeness of the next heavyweight champion of the world.

That is if the next heavyweight champion is to come from the four present outstanding challengers of Jack Dempsey.

Namely, Luis Angel Firpo, Harry Wills, Tommy Gibbons and Jack Renault.

The above photographic result is a composite picture of these four contenders.

It may not be significant to note that Senor Firpo's features dominate the ensemble.

## Appleton Fans Talk Four Day Baseball

Is Appleton to have a baseball team next summer?

That is the question which has been agitating a good many people for quite a while. No one apparently has offered to operate a club here this year and there are some fans who believe there are enough men who haven't had an experience that might want to try providing everyday sport.

**DOESN'T COST MORE**

It is argued that weekday baseball, under the protection of organized baseball, isn't much more expensive than the Sunday brand that has been offered fans here. For instance, pitchers can be secured to work for a month for about the salary paid to some hurlers for a single game.

A rather novel plan of baseball has been suggested. Instead of playing every day, it is proposed that a league of six or eight clubs be organized to play four or five days a week, Sunday, Wednesday, Thursday and Saturday.

Playing under the four day arrangement will make it possible to get along with fewer pitchers than if the game is played every day. Traveling expenses and other costs also will be reduced.

It is estimated that about \$2,250 a month will be required to support four-day baseball. Sunday baseball costs about \$1,200 a month and the entire revenue has to be raised in four days.

**2,000 FANS A WEEK**

The estimate of \$2,250 a month for support of the team is based on \$1,800 a month for salaries, \$200 a month for a paid secretary and \$200 a month for traveling expenses and incidental costs. It is believed this can be made up with an average attendance of 2,000 fans a week. This 2,000 attendance can be secured by crowds of 200 each on Wednesday and Thursday, 500 on Saturday and 1,000 on Sunday. Crowds of 1,000 and larger were frequent at the Sunday games last summer.

It is believed that a team consisting of 11 players and a playing manager can be secured for \$1,800 a month. There are quite a number of leagues operating under a salary limit of \$1,800 and are quite successful. The team could carry three pitchers able to alternate in the outfield and two catchers also able to play other positions.

## MICHIGAN WINS AFTER HAWKEYES ATTEMPT RALLY

Iowa Throws Bad Scare Into Wolverines, But Visitors Cop 27-25 Victory

By Associated Press

Iowa City, Ia. — Iowa university threw a bad scare into Michigan Monday night in a Western conference basketball game but Michigan finally won after a hard battle, 27 to 25. Both teams fought intensely but the superior basket shooting of the visitors gave them victory.

Michigan took the lead early in the game and had a neat margin. With but a few minutes left in the first half, Iowa started a rally, and the score was tied 13 to 13 as the half ended.

The Hawkeyes slumped at the beginning of the second half and visitors piled up a good lead, the score at one time being 24 to 15 in their favor. The Iowa five again hit its stride and brought the score to 27 to 25 in favor of Michigan but was unable in a brilliant attempt to tie the score.

Sicks stared for Iowa on offense and defense, while Doyle and Deng starred for Michigan.

## ILLINOIS BESTS BADGERS, 31 TO 20

Urbana, Ill.—Illinois exhibited the best basketball form of the year here Monday night when she stepped away from Wisconsin for a 31 to 20 victory. Stillwell, Illini center and scoring ace, made 13 of his team's points and Captain Potter contributing four fieldgoals. Captain Gibson of Wisconsin played the best defensive game for his credit, but the whole Wisconsin team sagged on shooting and failed to follow the ball consistently.

Repeated fouling by Wisconsin gave Illinois 13 to 10 lead at the half. The Illini scored nine of their points in this half from the foul line. In the meantime the Badgers were tending away their chances. Farwell missing five freethrows in a row.

## SPORT SHOP JUNIORS BEAT KAUKAUNA FROSH

Bealings Sport Juniors Monday night humbled the Kaukauna high school freshmen, 29 to 16, in a closely contested game on the Kaukauna high school court.

Kaukauna was leading, 12 to 5 at the end of the first half, but the Juniors made a spur early in that period and kept the lead from then on.

Bowers, Lutz and Bowly played a brilliant offensive game, while Zussman and Strutz starred in defense.

## BECKLEY TELLS OF 5 WAYS TO FINANCE BUILDING A HOME

Financial Aspect of Home Building Discussed at Y. M. C. A. Class

Five ways of financing a home were explained by George Beckley to the special class for home builders at the Y. M. C. A. on Monday evening. After his presentation there was open discussion of the merits of owning homes and several hypothetical cases were worked out to show the amount of money it takes to keep up a home in comparison with what it takes for rent.

Mr. Beckley gave as the five ways of financing the home: the plan of paying cash for the building and lot without the necessity of taking up a mortgage, the plan of taking a first mortgage of 50 per cent, the plan whereby one can take a first mortgage for 50 per cent and a second mortgage for an additional sum, the plan in which a 10 per cent payment is made and the rest is placed on a land contract and finally the plan of receiving 75 per cent through the building and loan associations.

The speaker developed each plan showing its advantages and disadvantages. The first plan needs little discussion and the second very little. Mr. Beckley said that it was hard to get a second mortgage without paying an increased rate of interest. In the contract plan, he brought out the danger of losing what one has put into the property in case the payments cannot be made. He then showed how the interest and savings plan of the building and loan associations are figured and showed how a man has 18 months in which to make good on his payments.

William Ehm, son of Joseph Ehm, Greenville, is confined to St. Elizabeth hospital by illness. His condition Tuesday was considerably improved.

## Talented Young Man Pianist In Glee Club

LA VAHN MAESCH  
La Vahn Maesch, son of Mr. and Mrs. Charles Maesch of this city is serving his second year as accompanist of the Lawrence Glee club which appears in its home concert tonight in Lawrence Memorial chapel.

Mr. Maesch was selected as the club pianist last year, his freshman year at Lawrence, by Dean Carl J. Waterman, director of the glee club.

Not only is Maesch an excellent pianist, but his work on the pipe organ is considered exceptional. For some time he held the position as organist of All Saints Episcopal church. Last year Maesch won the Theodore Presser scholarship in music at the Lawrence conservatory. He graduated from Appleton high school in 1922, and during the last two years has been taking college and conservatory course at Lawrence.

## LAUGHS AT EFFORT TO TAKE BAN OFF SUNDAY DANCING

Sentiment in Outagamie-co to repeal that part of the county dance ordinance forbidding Sunday dancing until neighboring counties or the entire state has enacted Sunday dance laws sounds ridiculous to a subscriber of an Oshkosh newspaper, who styles himself 'A Law Abiding Citizen.'

In a protest against Sunday dancing, he charges authorities with violating a state law by issuing permits for Sunday evening dances. For years there has been a law in the statutes books forbidding Sunday dancing and it is this law to which the Oshkosh reader appeals.

## Credit Cooperatives For Satisfactory Dairy Prices

Kaukauna Farmer Believes Co-operative Selling Is Farmer's Salvation

BY W. F. WINSEY

A large part of the credit for the satisfactory prices that dairymen as a whole have been getting for their products during the last ten years is due to those dairymen who have been marketing their products co-operatively through their own organizations, according to Charles A. Grode, a Kaukauna farmer, who is a patron of the South Kaukauna Cheese Producers' factory, a member of the Kaukauna Livestock cooperative shipping association vice president of Fox River Valley Storage company, Neenah, and director of the Wisconsin Cheese Producers' Federation, Plymouth.

Mr. Grode is one of the staunchest supporters of cooperative marketing by farmers to be found in the territory assigned to his supervision by the cheese federation, which consists of the western part of Calumet-co and Winnebago and Outagamie-co. Mr. Grode acquired his attitude toward collective marketing from ten years' membership in organizations of farmers.

MEANS BETTER PRICES  
Cooperative marketing, experts in that line assume and the experience of farmers seems to prove, that private buyers of farm products to shave their profits and to pay top prices, tends to stabilize prices throughout the year and demands a standardization of products. Some experts allege that during a series of years there is very little variation for instance, in the quantity of butter and cheese produced, the number of farm animals raised and the number of consumers and therefore, there should be no sharp fluctuation in prices. At the time of the year when farmers are marketing their crops, an overproduction is advertised as an explanation for an intended slashing of prices and when farmers' products are cornered in large centers of commerce, a shortage is advertised for the purpose of sharpening appetites and extracting maximum margins of profits from the consumer.

Farmers and experts in cooperative marketing by farmers may be right or wrong in the reasons they give for the fluctuations of prices of farm products but right or wrong, Mr. Grode decides to sell their dairy products through their own organization and own or control sufficient storage facilities, these products can be held in anticipation of satisfactory prices and farmers can feed the market as owners of warehouses are alleged to do now when they have the entire crop under cover.

Before much can be done toward

eliminating abnormal fluctuation in prices, standardizing farm products, in opening up new markets and in absorbing and turning over farm products gradually, Mr. Grode says, farmers must be taught the value of cooperative marketing and to trust each other and work together in harmony and in their own interest as every other class of producers do.

In 1914, Mr. Grode says, the Wisconsin Cheese federation operated on only one warehouse, located at Plymouth, which received that year 6,125,480 pounds of cheese in 1919, a warehouse at Spring Green, Wis., joined the federation; another at Pine Island, Minn., joined in 1922; warehouses at Wausau, Green Bay, New Richmond, Cumberland and Abbotsford joined and in 1924, one at Chicago and another at Neenah joined.

Meanwhile the receipts of the federation expanded from 6,125,480 pounds of cheese in 1914 valued at \$375,941 to 24,602,795 pounds of cheese in 1923 valued at \$5,959,418. The increase in cheese receipts for 1923 over those of 1922 was 30.36 per cent, says Mr. Grode.

## BUILDING TRADES INVITED TO MEET

An important meeting of the Appleton Trades and Labor council is scheduled to take place Wednesday evening in Trades and Labor hall in the Woolworth-bldg. It will be building trades night, and members of all the various building trades in Appleton have been invited to attend. Shamrock troop of Girl Scouts will stage a circus for the children of St. Mary school at Columbia hall at 3:30 Friday afternoon. The girls in charge have arranged a big show for which a general admission will be charged and in addition to this there will be many sideshows and booths. It has been planned just like a regular circus but on a miniature scale.

## CUTICURA HEALS RED PIMPLES

Itched and Burned. Face Was Disfigured.

"About three years ago my face broke out in pimples which later became sore eruptions. The pimples were large and red and festered and scaled over. They itched and burned causing me to scratch and my face was disfigured."

"I was treated and tried different remedies but they all proved unsuccessful. I began using Cuticura Soap and Ointment and in about a month I was completely healed." (Signed) Miss Leota Housel, Valparaiso, Neb., Aug. 20, 1923.

Cuticura Soap to cleanse and purify. Cuticura Ointment to soothe and heal. Cuticura Talcum to powder and sweeten are ideal for daily toilet purposes.

Sample Free by Mail. Address: "Cuticura Laboratories," Dept. 10, Malden St., Mass. Sold every where. Soap 25c. Ointment 25c and 50c. Talcum 50c. If your new Shaving Stick.

## Spring

evidently, is going to arrive early this year, --for never have we had, so early, so many new Spring Suits and Topcoats, --nor can we remember when, so many, selected so early, their spring clothes, as have already this season. Of course, the cheerfulness of the shades and patterns and the pleasing easiness of the lines of the new spring clothes are an influence for early buying. We know you'll like them too --come in and try on these new spring clothes --look them over and see what's new. You're welcome.

The new spring Hats and Caps are here too.

BUTTER

Have You Ever Tried It?

CHURNED FRESH DAILY AT OUR PLANT AT APPLETON

The delicious flavor and texture of this butter is attributed to the cream that is used in the manufacture. This cream comes from the Gopher Hill Creamery, that has recently been awarded 2nd prize in this locality for quality and sanitation at their plant.

This cream comes from a tuberculin tested herd and is pasteurized. These two conditions are considered the greatest safeguard to the public in the history of the business.
